

Puddles

Stack 6-7 pieces of 3x3 inches opaque glass. Any combination. (I used scrap.)

The stack spreads a lot when fused, so if doing more than one, spread the stacks far apart from one another in the kiln.

Fire:

1)500-1225/1.00

2) full - 1500/ 30 min

3) Full - 900/ 1.00

4) 150-725/no hold

If putting more than one stack in a kiln, slow first firing segment.

Clean puddles. Turn them over. You will see all of the colors.

Score down the middle. Turn over again. Put two pencils on either side of score and hit with a hammer on the score line. Wear glasses!!

With hammer or mosaic nipper, break the larger pieces into smaller ones.

Arrange small pieces on kiln shelf. Directions are to put on kiln washed shelf, but you may use kiln paper if you choose.

Fire:

1)500-1000/10

2)Full - 1500/30

3) full - 950/30

4) 3000-725/0
